

Multi-wavelength Lamps

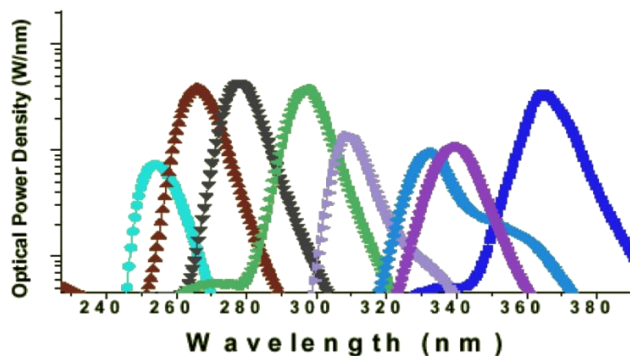

Wavelengths can be individually driven or powered simultaneously for a broadband light source

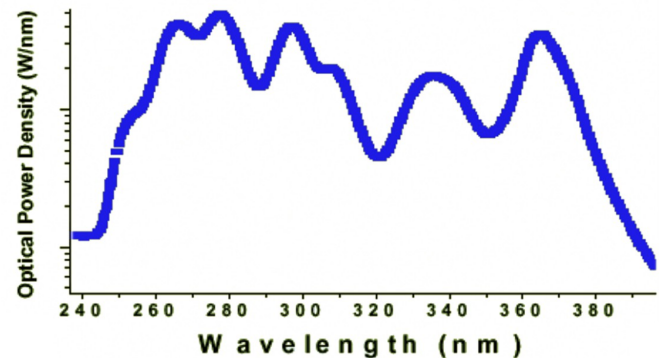

T0-3 Package—Up to 8 wavelengths

T0-5 Package—Up to 12 wavelengths

LCC—Up to 24 wavelengths

T0-3 Package 8 wavelengths individually addressable

T0-3 Package 8 wavelengths broadband light source

Ideal Light source for UV Spectroscopy Application

- Instant on/off
 - Fast switching ~2 nanoseconds
 - Eliminates need for choppers
- Fully customizable
 - Select wavelengths for your application
 - From 240nm to 355nm (longer wavelengths available on request)
- Long Life
- Robust and Compact
 - Ideal for portable systems
